

We hosted our first combined conference in June with the HCU Network America and the Propionic Acidemia Foundation. We were happy to gather again after our last conference in 2018.

I would like to acknowledge Erin MacLean for her leadership in organizing this year's conference. Planning and organizing a conference is a huge undertaking - and I appreciate that Erin took the lead in collaborating with our partners. Other OAA board members, Menta Pitre, Karen Dalton and Allison Wood were also in attendance and assisted with the tasks involved with organizing a conference -- THANK YOU ALL!

The link below are the professional videos from the OAA/PAF breakout portion of the conference. Also included is our keynote speaker, Dr. Gerry Berry and Dr. Mark Korson who spoke in a combined session on Saturday morning.

We have a limited supply of conference tshirts and bags - if you are interested in purchasing one - check out the link below. Please email me in advance to check on sizing. ([mkstagni@gmail.com](mailto:mkstagni@gmail.com))

We thank and appreciate our speakers who took time from their busy scheduled to share updates to our families. We also thank our many sponsors for supporting our conference -- without them we would not have been able to achieve this incredible experience for our families.

Hopefully we will be able to host another conference in the coming years.

Kathy Stagni  
Executive Director  
Organic Acidemia Association
